## CAREER OBJECTIVE

Aspiring AI and data-focused BCA student with fundamentals in Python, Flask backend development, and MySQL. Experienced in building data-driven applications and analytics dashboards, seeking to apply analytical and problem-solving skills in AI or data-oriented roles.

## SKILLS

### Technical Skills:

**Languages:** Java | Python.

**Frontend:** HTML, CSS, JavaScript | React

**Backend:** Python/Flask | **Database:** MySQL.

**Tools:** Git, GitHub | REST APIs | JSON Handling | VS Code.

**Soft Skills:** Teamwork | Analytical Thinking | Problem Solving | Communication.

## EDUCATION

### Bachelor of Computer Applications (BCA)

SASTRA University, Kumbakonam | 2023 – Present | **CGPA:** 7.6 / 10

### HSC Class XII, Computer Science

Town Higher Secondary School, Kumbakonam | 2022 – 2023 | **Percentage:** 74%

## PROJECTS

### 1) AGRO AI – Crop Monitoring & Yield Analytics

Links: [GitHub](#)

**Tech Stack:** HTML, CSS, JavaScript, Python, Flask, Chart.js, MySQL.

#### Description:

- Developed a full-stack web application to analyse crop data and provide yield insights using data visualization.
- Designed and implemented relational database schema with CRUD operations for analytics tracking.
- Integrated interactive bar and pie charts using Chart.js for data visualization and insights.

### 2) Zyra Fashion – Responsive E-commerce Website

Links: [GitHub](#)

**Tech Stack:** HTML, CSS, JavaScript. (Responsive).

**Description:** Developed a responsive e-commerce frontend with a modern UI and working hamburger Menu.

### 3) React QR Code Generator

Links: [Live Demo](#) | [GitHub](#)

**Tech Stack:** HTML, CSS, JavaScript (ES6+), React, Vite.

**Description:** Users can enter text or URLs to generate QR codes dynamically and real-time QR code rendering.

## INTERNSHIP

### Internship Experience:

Web Development (Learn Flu EdTech)

June 2024 – Aug 2024

- Contributed to a live web development project involving frontend implementation and basic backend integration.

### Achievements:

**First Prize – AGRO IQ AI:** Crop Monitoring & Disease Detection Project (Technical Competition).

## CERTIFICATES

- Python Programming Workshop – **IIT Madras** (Mechanica 2024)
- Web Development Live Project – (Learn Flu)
- Artificial Intelligence Tools Workshop (BE 10X)
- Git & GitHub Bootcamp (Let's Upgrade)
- Event Planning Head – S FOSS Association (SASTRA University)
